AHERA ANNUAL NOTIFICATION LETTER

August 31, 2020

To: Parents/Guardians and Staff  
From: Sharon Buge, Director of Finance  
Subject: AHERA Annual Notification

Dear Parent, Guardian, Staff Member:

In compliance with the Asbestos Hazard Emergency Response Act (AHERA) of 1986, this is to notify you that St. Dominic Academy has an approved Management Plan relating to the identification and location of asbestos containing materials. These plans are on file in the school business office and are available for your inspection.

The most recent 6 month surveillance and inspection was conducted in June, 2020. The last Three Year Inspection required by AHERA was completed in April, 2018. Inspections are conducted by a certified inspector from Detail Associates, Inc. Maintenance of asbestos-containing materials is an ongoing program in this school. Surveillance and other consulting activities are being performed by Detail Associates, a qualified asbestos management consultant retained by the school for assistance in these matters.

At the current time, all asbestos materials in the school are intact and in good condition. If you have any questions, or need additional information, please do not hesitate to contact me at 201-434-5938 ext 36.
